To Policyowners of Manulife Investment Plus (“MI Plus”) / Manulife Investment Solutions (“MISo”)
(each a “Plan” and collectively, the “Plans”)

Update to the Investment Objectives and Strategies of the Underlying Fund

We would like to notify you of the following changes with regard to the following underlying fund (the “**Underlying Fund**”) corresponding to the following investment choice under the Plans, following our receipt of the shareholder notice of the Underlying Fund dated June 15, 2018 (the “**Shareholder Notice**”).

Name of Plan	Name of Investment Choice	Name of Underlying Fund	Share Class of Underlying Fund
MI Plus and MISo	Manulife Inv China Bond Fund	Manulife Advanced Fund SPC - Renminbi Bond Segregated Portfolio	Class AA

According to the Underlying Fund’s existing investment objectives and strategies, it “will invest primarily (i.e. not less than 70% of its net assets) in RMB-denominated debt instruments, including convertible bonds that are listed or transferred on either the Shanghai Stock Exchange or the Shenzhen Stock Exchange, or interbank bonds, and which are issued by the Mainland China Government as well as corporations in Mainland China (“**Mainland China RMB Debt Instruments**”).”

With effect from June 15, 2018 (the “**Effective Date**”), the above investment objectives and strategies of the Underlying Fund have been updated to provide additional flexibility for the Underlying Fund to also invest not more than 30% of its net assets directly in the Mainland China interbank bond market (“**China Interbank Bond Market**”) in Mainland China RMB Debt Instruments via Bond Connect and/or other means as may be permitted by the relevant regulations from time to time.

In addition, with effect from the Effective Date, updates have been made to the investment objectives and strategies of the Underlying Fund to define the investment grade credit rating for bonds which are rated by a PRC rating agency for clarity and to align with relevant Hong Kong disclosure requirements.

Since the above change is to provide flexibility to invest via Bond Connect and there is no increase in the Underlying Fund’s aggregate potential exposure to Mainland China RMB Debt Instruments, the directors of the Underlying Fund are of the view that (i) the updates to the investment objectives and strategies of the Underlying Fund do not amount to a material change; (ii) there is no material change to, or increase in the overall risk profile of the Underlying Fund following the updates or any increase in fees or charges borne by the Underlying Fund or its investors; and (iii) the updates do not materially prejudice the rights or interests of investors in the Underlying Fund.

The prospectus and product key facts statement (“**KFS**”) of the Underlying Fund have been updated to reflect the above updates (via a second supplement to the prospectus and a revised KFS). Accordingly, for information relating to Bond Connect, and the risks associated with investing in the China Interbank Bond Market, please refer to the second supplement and the updated KFS of the Underlying Fund.

For details of the above changes and general updates of the Underlying Fund, please refer to the Shareholder Notice and the latest offering documents of the Underlying Fund.
